Jonathan X. Côté  
Mayor

June 21, 2022

Dear Mayor and Council,

**Re: Library Funding UBCM Resolution**

I am writing to ask for your support for a resolution that the City of New Westminster is bringing to the UBCM Annual Convention in September.

The Province of British Columbia provides grants to public libraries annually. In 2009, provincial funding for BC's public libraries was reduced from \$17.9 million to \$14 million. The grant has remained static at \$14 million since 2010. The lack of annual increases means that each year libraries receive less provincial funding as a portion of overall revenue, which results either in cuts to services or an increased cost to municipalities. Inflationary pressures compound the financial situation of BC libraries. Funding is provided to individual libraries; in 2022, the New Westminster Public Library (NWPL) received a grant of \$146,300, which represents 2.9% of NWPL's total operating budget, and a one-time COVID-19 relief and recovery grant of \$79,933.53 that will help address some needs this year only.

As in previous years, the BC Public Library Partners (BC Library Trustees Association, Association of BC Public Library Directors, BC Library Association and BC Libraries Cooperative) are coordinating advocacy efforts to increase provincial funding for libraries. The budget request in 2023 is for \$22 million.

In response to an appeal from our Library Board, at a meeting on June 13, 2022, New Westminster City Council received passed the following resolution to be considered by the UBCM:

WHEREAS libraries in British Columbia are largely financed by levies paid by local governments, and where provincial library funding has remained stagnant for the past 10 years;

AND WHEREAS public libraries are central to communities, provide equitable access to vital resources, including internet, computers, digital

library tools and in-person services from expert staff which are essential for low-barrier services and support job seekers and small businesses, that increase literacy in communities, that advance reconciliation with Indigenous peoples, and that promote equity and inclusion;

THEREFORE BE IT RESOLVED that the Union of the BC Municipalities call on the Government of British Columbia to provide long-term sustainable funding for public libraries in BC and that the Province ensure that BC Libraries will henceforth receive regular increases to Provincial Government funding in subsequent years.

The support of your delegates to UBCM for this motion would be greatly appreciated.

Sincerely,

Jonathan X. Cote  
Mayor

Darren Entwistle  
President, TELUS  
510 Georgia St W,  
Vancouver, BC  
V6B 0M3

Dear Mr. Entwistle,

I am writing to you in my capacity as Member of Parliament for Kamloops-Thompson-Cariboo. As an MP for a largely rural area of Interior B.C., I have become acutely aware of the underserved communities in my riding. Two important telecommunications issues were raised when I toured some of the rural communities this past fall: a lack of cellphone service and access to reliable, affordable high-speed internet.

The mayors and councilors in Barriere, population 1,700, Clearwater, 2,300, and Clinton, 641, each shared the pressing need for these services that so many in urban areas take for granted. Not being able to call for help in an emergency is the main concern. In Clearwater, for instance, there are 425,000 people that drive through or stay while visiting nearby Wells Gray Provincial Park in an average summer.

Cell service ends 10 kilometers outside Clearwater so that means no service for the remaining 36-km drive to Helmcken Falls, the park's main attraction; for residents of the Clearwater Valley, only landline service and internet via expensive satellite providers. This means these people and region is entirely cut off from calling for help if there is an emergency outside someone's home.

Page 12

I am told TELUS usually bases service on residential households. As there are only 1,100 households in Clearwater, this formula does not lend itself well to cell service consideration, but it does not take in the whole picture of the high summer visitor numbers.

In Barriere and Clinton, the lack of reliable and affordable high-speed internet is an impediment to development. They need this critical link to communicate and offer competitive, innovative services to the rest of the world. I was told during meetings in Barriere that once someone is just one kilometer outside the downtown, the internet is nearly non-functional. In the village of Clinton, workers who would have been able to work from home at the beginning of the pandemic were forced back into the office because of unreliable internet services. TELUS itself has noted that this community is considered "underserved."

I would like to better understand what impediments exist to offering these services to people living rurally or in smaller communities, and how this might be overcome. I believe the political will exists to tackle these long-standing issues. Please contact my office if you would like to further discuss these issues.

Sincerely,

To Whom It May concern.

Sir,

**Re: LETTER OF SUPPORT FOR FIBRE OPTIC TO VILLAGE OF CINTON**

On behalf of the High Bar First Nation Chief and Council, I Chief Roy Fletcher request that you accord Village of Clinton every assistance required in bringing High Speed Fibre Optic to the Village. Village of Clinton is situated in the traditional territory of High Bar First Nation right in Clinton and High Bar First Nation members use all the facilities available in the Village as we do not have a reservation yet hence, having Fibre Optic connected to every home would not only benefit the Village residents but all residents inclusive of High Bar First Nation members.

The Village of Clinton and High Bar First Nation have been collaborating in the development of the community to enhance quality service delivery to the residents and the introduction of Fibre Optic would further enhance online training opportunities as well as virtual health connections.

Should you have any further questions, kindly contact my office via phone at (250) 459-2117 or by email [roy@hbfnc.ca](mailto:roy@hbfnc.ca)

Sincerely,

Kukpi7 Roy Fletcher

NEWS RELEASE

For Immediate Release | June 24, 2022

## Drug poisoning prevention app marks two years of saving lives

**IH-WIDE** - A mobile phone app launched two years ago has continued to gain popularity among people who use drugs and those who support them, and is successfully preventing toxic drug deaths in B.C.

"The Lifeguard Digital Health App has a proven track record of keeping people safe and is an important part of our government's response to the toxic, unpredictable illicit drug supply," said Minister of Mental Health and Addictions Sheila Malcolmson.

Since its launch in May 2020, the app has been used by more than 9,000 people in B.C. There have been 104,783 sessions, resulting in 132 ambulance calls with 96 "confirmed ok" call backs to the app user. There have been 28 drug poisonings reversed and, most importantly, there have been zero deaths reported by Lifeguard.

In Interior Health there were 12,084 sessions (May 2020 – May 2022) including 14 ambulance calls. In April 2022, there were 422 sessions within Interior Health.

"There are many reasons why people use substances alone," said Interior Health president and CEO Susan Brown. "The stigma surrounding substance use is one of the main reasons. While we encourage people to access supports such as overdose prevention sites and avoid using alone, the Lifeguard App is an important alternative."

The concept is simple: Once downloaded on a mobile device, the app is activated by the user before they take their dose. After 50 seconds the app will sound an alarm. If the person using the app doesn't hit a button to stop the alarm, indicating they are fine, the alarm grows louder and if the individual does not respond, the app will trigger medical assistance with a call to ambulance services.

"I have used the Lifeguard app while using on my own and also when trying a new substance to ensure I would have help if needed. It's a great app," said one person with lived experience with substance use.

The Lifeguard app has continued to evolve since its launch. It now includes access to additional crisis lines, substance use supports, drug alerts, and guides to perform CPR and deliver Naloxone. In 2021 Métis Nation BC partnered with Lifeguard to launch a version for the Métis community.

To learn more about substance use services and the toxic drug crisis visit [interiorhealth.ca](https://interiorhealth.ca).

To learn more about the app visit [lifeguarddh.com](https://lifeguarddh.com).

## Information Bulletin

For Immediate Release | June 24, 2022

# Interior Health reminds you to be prepared for hot weather

**IH WIDE** – Environment and Climate Change Canada has issued special weather statements for several parts of the [province](#), with daytime temperatures in the Interior ranging from the low to mid 30s. This is not a heat warning or an extreme heat emergency, but we will experience the first high temperatures of the summer. The warmer weather will also cause rapid snow melt, leading to high rivers and streams throughout the province so please keep water safety in mind this weekend.

The first high temperatures of the season can lead to some people overheating because they are not yet acclimatized to warmer weather. There are some basic steps you can take to ensure you and your family remain safe and healthy during warmer temperatures.

Additional heat information is available on the Interior Health [public website](#). The BC Centre of Disease Control (BCCDC) also has a broad range of heat-related information on its [website](#), including information on the different types of heat alerts, how to prepare for warmer temperatures, symptoms of heat-related illnesses, those most at risk during warmer weather, and ways to stay cool.

### Preparing for hot weather:

- If you do not have air conditioning at home, find an air-conditioned spot close by where you can cool off on hot days. Consider places in your community to spend time such as movie theatres, libraries, community centres, or shopping malls.
- Check that you have a working fan. If you have an air conditioner, make sure it works.
- Shut windows and close curtains or blinds during the heat of the day to block the sun and to prevent hotter outdoor air from coming inside. Open doors and windows when it is cooler outside to move that cooler air indoors.

### Who is most at risk?

It is important to monitor yourself and family members, and to consider developing a check-in system for neighbours and friends who are at higher-risk during warmer weather

The most susceptible individuals include:

- Older adults, especially those over 60
- people who live alone
- people with pre-existing health conditions such as diabetes, heart disease or respiratory disease
- people with mental illnesses such as schizophrenia, depression, or anxiety
- people with substance use disorders
- people with limited mobility
- people who are marginally housed
- people who work in hot environments

---

We recognize and acknowledge that we are collectively gathered on the traditional, ancestral, and unceded territories of the seven Interior Region First Nations. This region is also home to 15 Chartered Métis Communities. It is with humility that we continue to strengthen our relationships with First Nation, Métis, and Inuit peoples across the Interior.

### MEDIA, FOR INFORMATION:

PHONE 1.844.469.7077 EMAIL [media@interiorhealth.ca](mailto:media@interiorhealth.ca)

- people who are pregnant
- infants and young children

**Your health:**

- Spray your body down with water, wear a damp shirt, take a cool shower or bath, or sit with part of your body in water to cool down if you are feeling too hot.
- Drink plenty of water and other liquids to stay hydrated, even if you are not feeling thirsty
- Take it easy, especially during the hottest hours of the day.
- Stay in the shade and use a broad spectrum sunscreen with SPF 30 or more.
- Signs of overheating include feeling unwell, headache, and dizziness. Take immediate action to cool down if you are overheating.
- It is important to remember that overheating can lead to heat exhaustion and heat stroke.
- Signs of heat exhaustion include heavy sweating, severe headache, muscle cramps, extreme thirst, and dark urine. If you are experiencing these symptoms, you should seek a cooler environment, drink plenty of water, rest, and use water to cool your body.
- Heat stroke is a medical emergency

In the event of a medical emergency, British Columbians are advised to call 9-1-1. However, it is also important to use 9-1-1 responsibly to avoid overwhelming the system.

BC Emergency Health Services in partnership with ECOMM is reminding British Columbians to only dial 9-1-1 for serious or life-threatening injuries

*When to call 9-1-1:*

- In general: when there is chest pain, difficulty breathing, loss of consciousness, severe burns, choking, convulsions that are not stopping, a drowning, a severe allergic reaction, a head injury, signs of a stroke, a major trauma.
- More specifically related to hot weather: severe headache, confusion, unsteadiness, loss of thirst, nausea/vomiting, and dark urine or no urine are signs of dangerous heat-related illness.

*If you have a less urgent health issue:*

- You can call 8-1-1 and get connected with a nurse at HealthLinkBC. Or, if you can do it safely, you could go to an urgent care centre or clinic.
- That way, our highly trained emergency medical dispatch staff and paramedics will be available for people who need their services the most.
- There are also online tools at [healthlinkbc.ca](http://healthlinkbc.ca) including a "Check Your Symptoms" tool.

While this bulletin is about the beginning of hot summer weather, additional information on preparing for extreme heat events can also be found in BC's [Extreme Heat Preparedness Guide](#).

**Re: Extension of temporary authority for B.C. liquor manufacturers to deliver liquor directly to retail customers from registered off-site storage locations**

---

### **Current Temporary Authorization**

B.C. manufacturers may deliver liquor to retail customers directly from their on-site store. Temporarily until June 30, 2022, they may also deliver liquor directly to retail customers from their registered off-site storage location(s).

For more information on the temporary authorization, see Policy Directives [22-02](#), [21-24](#), [21-02](#) and [20-21](#).

### **Extended Temporary Authorization**

The Acting General Manager (GM) of the Liquor and Cannabis Regulation Branch (LCRB) is extending the authorization, by term and condition, for manufacturers to deliver liquor directly to retail customers from their registered off-site storage locations.

This extended authorization is effective up to and including **June 30, 2023**.

Re: Motion at UBCM Protecting BC Coasts From Acidic Washwater Dumping being brought forward by Vancouver

We are writing today as Stand.Earth to bring your attention to an important resolution that will be coming before UBCM, having passed unanimously at LMLGA, to address acidic wastewater discharge in all waters off BC.

It is well established that ocean acidification has devastating effects on marine life, aquaculture, and coastal communities dependent on a thriving ocean. In recent years a new device has been taken up in record numbers that is dumping catastrophic volumes of acidic wastewater directly into the ocean from vessels.

In order to mitigate sulphur air pollution from burning heavy oil, the maritime shipping industry employs exhaust gas cleaning systems (scrubbers) instead of simply switching to lower sulphur fuels which are already available on the market. Scrubbers result in a solution of concentrated acidic sulphates, metals, and other toxins that are dumped directly into the ocean while the ship is in operation.

Cruise and cargo vessel traffic in Canadian jurisdiction annually discharge tens of millions tonnes of this acidic washwater directly into the coastal waters of BC. [The International Council for the Exploration of the Seas](#) has found that scrubber washwater has lethal and sub-lethal effects on plankton, a critical component of marine ecosystems.

# STAND .earth

The Vancouver Fraser Port Authority is demonstrating regional [leadership](#) in preventing acidic wastewater dumping and is [phasing in a requirement simply for ships to burn cleaner fuels](#). They join the [Port of Seattle](#), Quebec's Port Sept-Iles, [The State of California](#) and ports [around the world](#) in taking steps to prevent the use of scrubbers and mandate a transition to cleaner fuels.

The resolution before UBCM is critical to bring this issue to the table with levels of government that have jurisdiction over territorial waters and can protect the Salish and Great Bear Seas. We urge you to support the motion "Protecting B.C.'s Coasts From Acidic Washwater Dumping" at the upcoming UBCM convention in September.

Thank you for your consideration of our letter. Please do not hesitate to reach out at [anna@stand.earth](mailto:anna@stand.earth) or call during daytime hours to 604-757-7029.

Sincerely,

Anna Barford  
Canada Shipping Campaigner  
Stand.earth  
Vancouver, BC

# We Need to Move Faster on the Ban of Marine Scrubbers in the Port of Vancouver and Across Canada

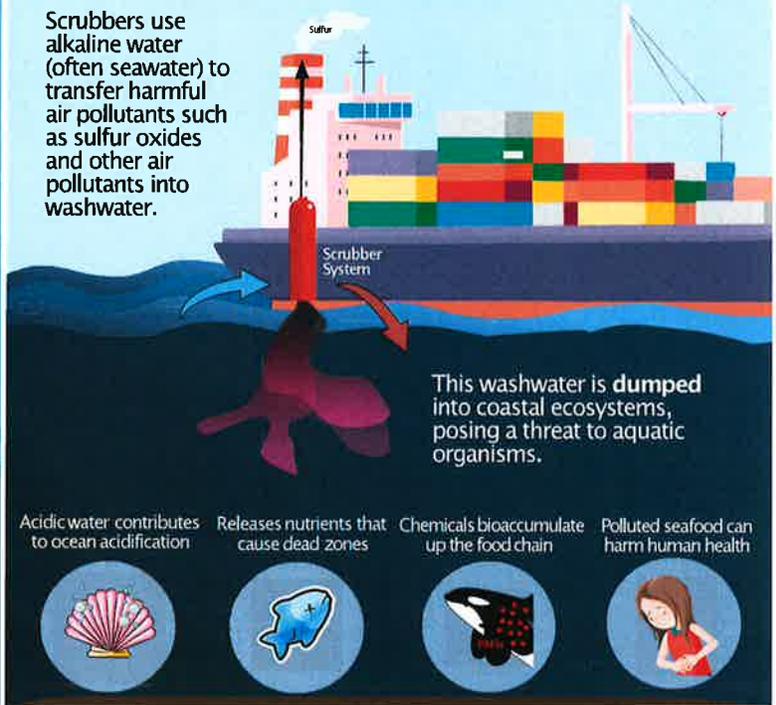

## WHAT ARE MARINE SCRUBBERS?

Marine Scrubbers were created as a **loophole** for ships to avoid switching to cleaner fuels in response to more strict 2020 sulfur emission guidelines.

## WHY ARE SCRUBBERS BAD?

Scrubbers use alkaline water (often seawater) to transfer harmful air pollutants such as sulfur oxides and other air pollutants into washwater.

## WHAT IS BEING DONE LOCALLY?

The Port of Vancouver has enacted a 3 phase ban of scrubbers in its jurisdiction:

Currently, **ships can still dump scrubber washwater** while moving in and out of port. We need to move faster to a full scrubber ban.

We also need **Canada-wide** legislation banning scrubber use to protect all Canadian waters.

## WHAT CAN YOU DO?

### 1. Get Talking

Spreading awareness about the issue helps to put more pressure on local and federal governments to **ban scrubbers now**.

### 2. Put Pressure on Government

Write an **e-mail** to your local MP or **tweet** Transport Canada.

**#banscrubbers #nodumping**

Dear Mayor and Council,

**Re: Hospice Services Funding – UBCM resolution from Town of Gibsons**

At our May 17, 2022 Regular meeting, Council considered and adopted the following resolution:

“WHEAREAS Hospice Societies across BC offer services and innovative programs which enhance the quality of life of palliative patients and their caregivers in the community where they live, as well as supportive bereavement programs for those who are left behind:

AND WHEREAS reliable government funding necessary for the sustainability of the essential social service provided by Hospice Societies is inconsistent and irregular:

NOW THEREFORE BE IT RESOLVED that UBCM call upon the Government of British Columbia to recognize the established place of Hospice Societies in the continuum of palliative care and bereavement support and develop a funding model which provides annual operational funding to community-based hospice societies for the provision of programs and services:

AND FURTHER THAT UBCM encourages local governments to also contribute financial support to Hospice Societies within their communities.”

Thank you in advance for your support and consideration for this resolution. Please feel free to contact our office should you have any questions or comments.

Yours truly,

William Beamish  
Mayor of Gibsons

## Staff Report to Council Open Meeting

**Date:** July 6, 2022

**From:** Community Development Coordinator

**Subject:** British Columbia Healthy Communities (BCHC) Age-Friendly Grant

**Recommendations:**

**THAT, Council supports the application to the BCHC Age-friendly Communities Grants Program for an age-friendly assessment and action plan.**

**Background:**

The BCHC Age-friendly BC Program is focused on assisting local municipalities to create age-friendly communities, where older adults are supported to age in place, be socially engaged and lead independent lives.

This grant provides local governments with an opportunity to develop an age-friendly assessment and action plan, using input from residents, businesses, and organizations. The resulting plan will create strategic tactics and goals to improve activities, programming, and facilities for seniors in our community.

Creating an action plan is the first step towards further funding for activities, asset improvements and programming funding for seniors. Having a completed assessment is a prerequisite for most senior-based funding applications.

**Financial Impacts:**

None.

## Staff Report to Council Open Meeting

**Date: July 13, 2022**

**From: CAO**

**Subject: Elections Bylaw**

**Attachments:**

**1) Election Bylaw No. 582, 2022**

**Recommendations:**

**THAT, Council adopt the Village of Clinton Election Bylaw No. 582, 2022.**

**Background:**

The Village of Clinton Election Bylaw No. 582, 2022 was brought before Council at a special meeting on July 6. The Bylaw received the first three readings at the meeting. The Bylaw received no amendments and is presented for adoption.

**Financial Impacts:**

There is no financial impact in adopting the election bylaw. The cost to hold the general election has been identified in the adopted budget.

**THE VILLAGE OF CLINTON  
ELECTION BYLAW NO.582, 2022**

A bylaw to provide for the procedures and conduct of local government elections and other voting within the Village of Clinton

---

The Council of the Village of Clinton in open meeting assembled enact as follows:

**1. CITATION**

This Bylaw shall be cited as the "*Village of Clinton Election Bylaw No. 582, 2022*".

**2. REPEAL**

The "*Village of Clinton Election Bylaw No. 548, 2017*" and all its amendments are hereby repealed.

**3. INTERPRETATION**

In this Bylaw:

"*Nominator*" means an elector of the municipality for which the nomination is made;

**4. MINIMUM NUMBER OF NOMINATORS**

The minimum number of qualified nominators required to make a nomination for office as a member of Council shall be 10.

**5. ELECTOR REGISTRATION**

A person may register as an elector only at the time of voting for all elections and assent voting.

**6. ADVANCE VOTING OPPORTUNITES**

6.1. The required advance voting opportunity will be held on the 10<sup>th</sup> day before the general voting day from 8:00 am to 8:00 pm.

6.2. The Chief Election Officer my:

6.2.1. Establish additional voting opportunities to be held in advance of general voting day;  
and

6.2.2. Designate the voting places and set the voting hours for these voting opportunities.

**7. SPECIAL VOTING OPPORTUNITIES**

7.1 The Chief Election Officer may establish the dates, locations and voting hours within the limits set in the *Local Government Act*, for the special voting opportunities.

7.2 The Chief Election Officer may limit the number of candidate representatives who may be present at the special voting opportunity.

**8. ORDER OF NAMES ON BALLOT**

The order of the names on the ballot shall be determined by lot in accordance with Section 117 of the *Local Government Act*

**9. RESOLUTION OF A TIE VOTE AFTER JUDICIAL RECOUNT**

In the event of a tie after a judicial recount, the tie vote will be resolved by conducting a runoff election in accordance with section 152 of the *Local Government Act*.

**10. SEVERABILITY**

If any portion of this bylaw is found ultra vires by a court of competent jurisdiction, that portion shall be deemed to be severed from the bylaw to the extent that the remainder of the bylaw shall continue in full force and effect.
