DELEGATION REQUEST FORM

In order to appear before Council as a delegation, please take the time to complete this form. It will help in providing Council and staff with an overview of the presentation and the key points Council needs to be aware of. We ask that the presentation be **kept to a MAXIMUM of ten (10) minutes** so that there will be reasonable time for Council to ask questions, should they wish to do so.

PLEASE NOTE that the information contained on this form and any supporting materials will be included on the agenda (time permitting) and will be therefore made available to the public and the media at the time the agenda is published.

1. Name of Organization or Group

Enbridge

2. Name(s) and title(s) of Person(s) making presentation

Jennifer Prochera

3. The topic of the presentation to Council

Update on Enbridge's Sunrise Expansion Program

4. What is the desired outcome of the presentation (letter of support, change in bylaw or policy, to provide information only)

Information + respond to questions + receive feedback.

Notice of Motion - Presented to the Corporate Officer May 14th

On the next regular meeting of council (May 28th) I would like this brought forward to be placed on the agenda for consideration.

Support for Establishment of an Official Community Flower

Whereas the Village of Clinton BC wishes to recognize and celebrate the natural beauty of our area. And whereas the Clinton Roots and Blooms Society (formally Clinton Communities in Bloom and Beautification Society) would like to recommend the Showy Aster (Eurybia Conspicua) as the official flower of the Village of Clinton.

Therefore it be resolved THAT The Village of Clinton's official flower be designated as the Showy Aster (Eurybia Conspicua)

Councillor Sandi Burrage

Background on the Showy Aster (Eurybia Conspicua)

- **Perennial:** It grows back year after year.
- **Late Bloom:** It blooms in late summer (mid-August to September), providing nectar for insects when other flowers are fading.
- **Habitat:** It's a hardy plant that can tolerate various conditions, including disturbed areas.
- **Spread:** It spreads slowly by rhizomes and seeds.
- **Deer Resistance:** It's relatively resistant to deer browsing.
- **Pollinator Support:** It attracts pollinators like bees and butterflies.

Staff Report to Council Regular Meeting

Date: May 28, 2025

From: Chief Administrative Officer

Subject: Development Variance Permit Technical Report – 1504 & 1506 Cariboo Hwy 97 Parking Requirements

Attachments:

Development Variance Permit application – 1504 & 1506 Cariboo Hwy 97 Parking Requirements

Recommendations:

THAT Council of the Village of Clinton authorize staff to proceed with the notification process, including notification of adjoining property owners, of Council's intent to consider issuance of a Development Variance Permit to James Woods and Sarah Munroe for the property located at 1504 Cariboo Hwy, and legally described as Lot A, Plan KAP8160, District Lot 1, Group 5, Lillooet land district and the property located at 1506 Cariboo Hwy, and legally described as Lot B, Plan KAP8160, District Lot 1, Group 5, Lillooet land district, Except Plan 35605 to vary Zoning Bylaw No. 439, 2007, s. 17.3 a) from the requirement for 13 parking spaces to only 5 parking spaces, in substantial accordance with the application as submitted on May 16, 2025.

Background:

The owner of 1521 Cariboo Hwy has applied for a development Variance Permit to vary the parking requirements of the Zoning Bylaw in the following ways:

- Reduce number of required off-street parking spaces from 13 to 5.

The application has been referred to the following agencies. Their comments are indicated below:

Fortis BC: No response

Ministry of Transportation and Transit: No concerns

Clinton Volunteer Fire Department: No concerns

Village of Clinton Public Works Department: No concerns

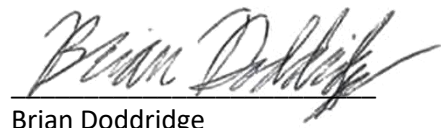

Staff confirmed with the applicant that the parking spaces which have been proposed are standard size (7.5m x 3m) and that there is enough space on the site as indicated by the applicant. The easement on the property, indicated on the map by a thick black border, is to maintain access to a Village water main and will not be affected by the parking areas indicated in the application. However, the area may become congested, and issues arise if patrons park on both sides of the alley. Once comments from adjacent property owners are received, Staff may recommend the installation of No Parking Signs and or barriers to be installed as a condition of the permit.

As there are only one or two staff members, and the building is not being used as a dwelling, more spots will remain available for customers. There are many on-street parking spaces within a reasonable walking distance of the property and parking is rarely at capacity. Other than during peak tourism season and the possible congestion mentioned above, Administration does not anticipate any significant concerns about parking in the general vicinity.

Administration has reviewed the application and referral responses, and recommends moving forward with the DVP. The next step in the process is to pass a resolution to proceed with notifying adjacent property owners of Council's intent to offer the DVP to the applicant. The responses will be compiled and presented to Council at the next meeting, at which point Council can issue the permit.

Staff Report to Council Regular Meeting

Date: May 28, 2025

From: CAO

Subject: Basketball/Tennis Court Public Engagement Responses

Attachments:

Public Engagement Responses

Recommendations:

For information

Purpose

This report presents Council with the responses from the public engagement program carried out for the Multi-use Court Project.

Background:

During the week of May 12th, the Village hand-delivered letters to residences adjacent to or having significant sight lines to the site of the proposed multi-use court location. A notice was also posted on the Village's website and Facebook page. Those interested in commenting were asked to submit written comments to the Village office in person or by email.

In total, five responses were received by the May 22nd deadline. Four of the responses are attached to this report. One additional response contained private information that cannot be presented on a public agenda according to the Freedom of Information and Protection of Privacy Act. The report can be summarized as follows:

An individual expressed that poor mental health conditions will be made worse by the constant sound of the basketball.

Unless Council wishes to consider changes to the project based on the comments received, Administration will continue to work on the RFP to obtain detailed proposals for the development of the court.

Financial Impacts:

Changes to the scope of the project may have implications for the project's cost.

Brian Doddridge
CAO

May 20, 2025

To: Village of Clinton,

NOTICE – Proposed New Multi-Use Court

I received the information regarding the construction of a multi-use court at the Northeast side of Reg Conn park. I as a citizen & business owner of Clinton would definitely like to share my input regarding this construction. I, Jane Munro reside & operate my business at 196 Dewdney Avenue which borders up to Reg Conn Park.

My first question or concern to this upon reading the letter was what is wrong with current Basketball/Tennis court? Living where I live I see how much use the existing court gets. It is VERY minimal use. I would say it would be lucky if it was used a few times a month and that would be generous!

My second concern is putting a big court up and taking up part of the park which gets MUCH more daily use then the existing court is a great waste of space in my opinion. Many people enjoy the park on a daily basis and the majority of the space as is greatly used by kids, people walking dogs, picnics and other events. I think taking away from this well used space would not be a good idea

My third concern living right next to this proposed court would be the noise. I think it would not only be an eye sore in our what is now such a beautiful park but also living right next to the park, I feel the noise could turn into an issue as well.

I did hear that the old court would be eventually tore down to make room for more housing. I am not sure why not deal with this when and if it happens rather then jumping the gun and tearing down a perfectly fine court for the amount of use it gets!

Thank you for allowing me to share my comments.

Jane Munro

Morning Brian,

I just wanted to give my two cents on the proposed idea of putting the court in Reg Conn Park.

I absolutely love the idea. I believe it is a better setting than the current one because it is much cooler in the park during the heat of the summer. Also, that part of the park is rarely used. I believe more people will use it in the part vs. if it was put up at Elliott Park.

Whoever came up with this idea is a genius and I hope it passes.

What will be done with the old site? If the road to the park gets shut down like I have heard the eventual plan is, where will people park? I don't have to worry much because it's a quick walk for me.

Have a great day!

Jordan [REDACTED]

Hi, I am hoping it will be tennis / pickle ball court and basketball court.
Pickle ball is a growing sport that many find less strenuous than Tennis, but still offers a great workout.
There is very minimal cost to incorporating the pickle ball element (paint) , and would be enjoyed by both locals and visitors to our community.
Thank you for the opportunity to have input .

Subject: Proposed new multi-use court.

Categories: Council

I strongly oppose the proposed location of the multi-use court at the northeast side of Reg Conn Park. I live right across the street from the proposed location and I realize that my peace and quiet will come to an abrupt end if this happens. The whacking of tennis balls and thumping of basket balls, along with shouting and arguing will go on most of the day and well into the night. Not mention the increase in the volume and noise of traffic. The stress this will cause me can only be detrimental to my health and well-being. As an elder I retire at 8 p.m. I moved to this corner of the village to enjoy the tranquility and peace and quiet of this location in my last years of life. Please do not take this away from me.

I am requesting that you consider a more suitable location.

Thank you,

Laura [REDACTED]

Council Report

May 16 2025

From: **ROLAND STANKE, MAYOR**

Subject: Council Report from

Portfolio\Working Groups Update:

- A. Community & Government Liaison:
- B. Emergency Planning
- C. TNRD -Director

Meetings Attended:

OTHER Activities: Silga convention April 29th to May 02

Tuesday – first seminar attended was about tourism transformed and visitor centre strategies: covered off areas of concern such as developing a visitors strategy, focus on off season and shoulder season, need a diverse groups to support community events, developing a destination tourism plan. Ideas that were discussed included a picture tour in the community, create a tourism photo contest to build a photo bank, tear sheet maps in local restaurants as well as information pamphlets in hotel rooms. Some communities adopted a 2% hotel tax to support tourism initiatives.

The second discussion was health human resource strategy: this subject has been discussed for well over 20 years with recruitment still the main factor. There was some number crunching as to possible recruitment opportunities but the main hindering factor is the college of physicians with their policies, red tape and high examination fees. The work is starting; to eliminate interprovincial red tape as a physician or nurse should be able to work anywhere in Canada.

Wednesday April 30th: economic development in the southern interior. Presentation was done by ETSI-BC being one of the 3 regionals that provide grant funding. Discussed rural business community recovery as well as comprehensive revitalization plans. Projects are 100% funded for communities under 750 in population.

Attended the opening ceremonies and walked through the trade show.

Council Report

Thursday May 01: culture and arts. Discussed various forms of music culture and festival culture. Looked at the Various outcomes of the merit mountain music festival as well as the Hedley music festivals. Discussed street markets, local entrepreneurship, buskers of various food vendors as well as downtown revitalization. Looked at economic transition as more young people are looking at rural BC, focusing on quality of life over quantity and looking at opportunities to make climate change opportunities.

Culture isn't fluff as it creates infrastructure for belonging, innovation and economic growth. It builds community pride and cohesion. People don't just travel to places; they travel for experiences such as heritage festivals, mural tours as well as artisan markets. Develop clear goals and cultural strategies through developing partnerships with artist led initiative.

Friday May 02: attended a presentation on what is a business improvement area. Focus was on marketing, community charm, vibrancy and being an advocate for actions. Focus was also on reducing the cost of doing business by developing a solution based mindset.

May 15th TNRD meeting. Presentation by Valley Rail feasibility research who is looking at implementing an electric passenger rail train from Osoyoos to Kamloops.

Received the 2024 TNRD annual report.

New TNRL app was presented which opens a whole new online library world. App can be downloaded on the app store or from google play.

Attended the 158th annual ball on may 17th. Lots of good heritage costumes, it was well attended. Lots of dignitaries attended the event.

Attended the annual community forest presentation to council on may 13th. The community presentation and public report will be presented on July 03.

Planned Activities:

June 11 out of town board meeting will be in Clinton community hall at 1:30 which is open to the public.

- NDIT
- CCF
- Clinton & District Assisted Living Society
- Clinton/Area Community Wildfire Round Table
- Clinton FireSmart

Meetings Attended:

- May 5th 10:30 Clinton Firesmart Resilience Committee.
4 people in attendance, 1 via zoom
Prescribed burn [1 hectar community burn] has been postponed till fall of 2025 whether permitting.
It has been decided that there will be a Firesmart Community BBQ on Saturday June 14th at the Reg Conn park. There will be information booths etc. to get the word out about what we are about and possible rebate programs available.
Watch for more info coming soon.
Next meeting July 21st 2025.

CCF meeting May 13th 2025.

Annual review with Council and Mayor went very well with all parties involved be well engaged. CAO,s comment to the CCF board members regarding the village funds received from CCF are now being put in its own reserve account with guidelines on what it may be used for. All the board members were happy to hear that Mayor and council and staff worked to create this bylaw/policy.

Our latest cut in 2024 CP12 was the first time we were able to cut [log] green fir since our start back in 2014. This year of 2025 we are expecting to cut/log green fir again.

Hope to do interviews for the student bursarys ,1 application so far.

Our CCF annual general meeting will be held on Thursday July 3 2025 at the hall.

Next meeting June 17th.

Respectfully submitted,

Darrell Schapansky

SILGA 2025 Merritt B.C.
Conference April 29th -May 2nd

Tuesday 29th ... Bees , Bison, and Beer tour.

30 Min bus ride west on hyw 8 and up the mountain to a small bee farm/ranch.

The hilite I got from this was I now have a total real respect for that little jar of honey.

The total amount of work year round that goes into that little jar is crazy. Never mind the time/energy for marketing etc.

The whole process at this place was old school , nothing hi-tech but very sufficient and productive.

On the bus again for about 45min ride towards Kamloops on the old hyw 5 and up the mountain again [different one] to a small Bison ranch probably 15 head /1 bull. Wow what a view from the top . Anyways this ranch is small and one of the first and here again old school.

The Bison [Buffalo] were roaming freely with only perimeter fencing only . No fencing between the house deck that we were on and Bison. They were very calm and that bull was big at approx. 2700 yet still trying to get him to 3200 . /

On the bus again back to Merritt to a craft brew house . So this was a small mom/papa operation that was big time old school on how they operate. Both are ' retired' and doing their hobby . The master brewer is so passionate about what he does it is refreshing to see.

This tour was from 11am till approx 430pm. I was beat after that but well worth the bus ridesbeats golfing in my eyes.

Wednesday April 30th Community forests ...Breakout session

Fun facts- 62 community forests in BC, account for 3-4% of the provinces allowable cut

Half of CF,s are involving 1st nations to some degree.

The present CF,s are pushing for more of the allowable cut and is being considered by the province at this time,however province is not entertaining any new applications for CF,s.

It is a big effort and huge commitment to get an CF so my hats off to the persons involved getting Clintons CF off the ground back in 2013/14.

Various speakers thruout the rest of day, Regional District, BMO, Motivational speaker.

Trade show opens up , lots of vendors did abit of PR,ing. [mingling]

Welcome reception was at the NVIT , entertainment was great , drumming and various young dancers , very much the hilite for the evening.

Thursday May 1st

I had a prior commitment for the morning but back at it at 1pm or so. Mostly trades talk and AGM session ,UBCM address and time with a few different vendors.

I had signed up for the Barkman concrete manufacturing tour. It was not at all what I was expecting. They make a wide range of concete products for the commercial/retail market.

This plant in Merritt is only 3-4 years new ,totally automated ...nothing old school here.

Very few employees but techy kind of personnel , High paying jobs?? 2 shifts and they sell most of their products with in B.C./ALB. The parent company is in Winnipeg and have plants in Port Moody /Calgary as well. It appeared to be a very busy and clean ,organized high tech operation.

The evening banquet was well attended and the meal was gooddespite our table was pretty much last to get called..lol.

Friday May 2

Breakout sessions, seminar on Business Improvement Area .wtich was confusing ,i was not understanding this concept ,hopefully Mayor Stanke got more out of this seminar.

The next seminar got my interest, a local development company called TROIKA group out of Kelowna . They develop projects such as [lot 9], and our visions for where the old tennis court is . I made contact with the CO /founder and has since reached out .I have past the info to Brian our CAO just recently.

12 noon came and we were all out of there great conference learn more and more each time I go to these eventsfinal note hats off to staff for putting together our Clinton basket it was great and did us proud.... its not a competionbut...
